DAY 1: REYKJAVIK

Arrive in Reykjavik and transfer to your hotel by shuttle bus.

After check in at your hotel, proceed to **Blue Lagoon** by Blue Lagoon Express. The Blue Lagoon is one of Iceland's most popular attractions, a natural geothermal pool in the middle of a large and dramatic lava field and an oasis that owes its existence to a nearby geothermal power plant, looming large over the aqua tinted waters. Stop for 1 ½ hour for a refreshing bathe or a swim in the inviting, rejuvenating and pleasantly warm mineral-rich water (37°C-39°C/98-102°F), reputed for its healing properties. An indoor pool and geothermal sauna are also on the site. Bathing in this surreal environment is a unique experience no one should miss.

In the evening it is time for the **Northern Lights Hunt!**

The Northern lights also known as the Aurora Borealis are a spectacular natural phenomenon, often seen dancing around in fantastic colours across the Icelandic Arctic sky. The Northern lights are caused by the interaction of particles from the sun with the upper atmosphere near the North Pole. That creates this wonderful light effect, known as the Aurora Borealis. This tour is dependent on weather and sightings are not guaranteed. If you don't see any lights on your tour you are welcome on another Northern Lights tour free of charge. Refreshments not included.
